

# NeatNick® Heel lance for newborn babies

Provides quick and effective access to blood samples from the heel.

- Automated sweeping high-speed blade allows for a controlled depth and clean edged incision depth.
- Accurate incision minimizes newborn discomfort.
- Faster healing times and less trauma.
- Reduces newborn screening reject rates and hemolyzed samples.
- Reduces newborn screening reject rates and hemolyzed samples.

Latex, DEHP and BPA-free

NeatNick's textured design ensures a secure placement on the baby's heel.

Tapered edge and arrows are used as guidance for accurate placement.

Smooth firing mechanism produces a quick incision so the baby doesn't "jump."
