

From the Inventor of Soothie®!

"I developed JollyPop to provide babies with a soft, comfortable pacifier that works with tubes and cannulas, without cutting!"

Read McCarty; Founder of Children's Medical Ventures, Hawaii Medical and SandBox Medical

What Parents Are Saying

"Lightweight and so much better for my preemie than those huge ones. I like being able to see my baby's face & not just a big round pacifier and 2 eyes!"

NICU Parent; Thornville, OH

"The shape of JollyPop is great! My son was born at 25 weeks and is currently on oxygen. The shape of JollyPop allows his cannula to fit."

Noelle; Valders, WI

"The loop-shaped handle makes it easier to put in baby's mouth. And it's so convenient to loop on my finger while I care for my baby."

Kristie; Escanaba, MI

Nurses Love It Too!

"The only pacifier we used. All three of my babies loved Jollypop and were strong, efficient, healthy, nursing babies from day one."

Rhys, RN; Norwell MA

The Pacifier Used in Top US Children's Hospitals* Soft, Comfortable & Lightweight

- 100% silicone - made in USA
- Softer & lighter than Soothie
- Lowest profile – fits all CPAP, nasal cannulas and side lying, without cutting down

Cutting down pacifiers violates product safety requirements and presents a risk of injury and infection to caregivers and babies.

BPA
FREE

Natural nipple shape babies love, same as hospital baby bottles and Soothie

Comfortable-curved shape fits baby's face

Easy-to-hold loop-shaped handle

Unique manufacturing process combines soft and firm 100% silicone with the low profile & curved shape babies love.

- Two grades of silicone combine to meet CPSC** safety standards
- One-piece construction – adheres to American Academy of Pediatrics Guidelines

JollyPop Hospital Trial Results

98% of nurses approved switching to JollyPop.†

Over 39% wanted to switch **ASAP.**

† of 922 nurses indicating a preference
